ServiceART Portfolio

Moving into your dream home does not conclude our service with you.

Each HUF House is created with the greatest care and devotion, and customer service and after care are of paramount importance in every home we build. Our commitment to our clients is to continue to provide a dedicated service throughout the longevity of their home.

Wellness area for body, mind and soul

HUF House post re-modeling:
plenty of room for new perspectives.

Extensions and modernisations:

Life is full of changes, sometimes planned, sometimes unexpected. If you had the good foresight to plan your plot to include space to spare, then you will have placed yourself in a strong position to accommodate an extension.

The modular, timber-frame architecture of HUF HAUS is adaptable to the easy expansion of living space even after many years. The timeless style of HUF architecture ensures that old and new combine harmoniously.

Change is the elixir of an active life. Many people therefore want to change their living environment after years of adapting to changing needs. ServiceART makes your structural and interior design wishes possible and can help you realise added personal value. Delivering perfect quality is the nature of HUF HAUS.

Your ServiceART team is always at your service to advise you on the various possibilities, they may surprise you.
